

## 2016 Tax Information

**U.S. Government Obligations**

Most states exempt interest earned on obligations of the federal government from state and local taxes. This may allow a portion of any dividends you may have received from a fund to be exempt from state and local taxes (the exemption requirements vary from state to state). During the calendar year 2016, no funds earned ordinary dividends derived from U.S. Government obligations.

**Foreign Source Income**

You are allowed to claim a tax credit or an itemized deduction on your federal income tax return for your share of foreign taxes paid by the Alger Family of Funds during 2016. In most cases, you will receive more benefit by claiming a tax credit.

The amount reported in Box 6 of Form 1099-DIV represents the amount of creditable foreign taxes paid by your Fund. The information that follows will assist you in calculating the information necessary to claim either a credit or itemized deduction.

To calculate your total foreign source income passed through from a Fund, multiply your ordinary dividends (Box 1a of Form 1099-DIV) by the foreign source income factor shown in the Foreign Source Income Factor column below:

Fund	Foreign Source Income Factor
<b>Alger International Growth</b> (Classes A, B, C, I and Z)	100.00%

**Corporate Dividends Received Deduction**

Mutual fund dividends derived from certain domestic corporations may be eligible for the dividends received deduction (DRD) for corporations. A portion of the ordinary income dividend paid by the Alger Family of Funds during 2016 may qualify for the deduction.

The table below provides the portion of the ordinary income dividends attributable to such domestic corporations for the Alger Family of Funds for 2016.

Fund	Corporate DRD Percentage
<b>Alger Growth &amp; Income Fund</b> (Classes A, C and Z)	100.00%
<b>Alger Global Growth Fund</b> (Classes A, C, I and Z)	100.00%
